

Office Memorandum • UNITED STATES GOVERNMENT

OGC Has Reviewed

TO : General Counsel

FROM : Deputy Services Officer

SUBJECT: Garage Rental, [REDACTED]

DATE: 8 February 1949

25X1A

Under date of 23 September 1948 this office addressed you with regard to procuring parking space for the [REDACTED] of Contact Branch under somewhat unusual circumstances. The question has again been raised, but the problem is now of a different nature and accordingly requires further review. It is understood that the lack of parking facilities at this location has been a serious handicap and that their rental is fully justified.

25X1A

It appears that the local garages have a standard agreement form, specimen attached. It is requested that this form be reviewed and an opinion furnished this office indicating whether or not this agency may properly lease such facilities for such purposes.

Should you find it proper for such a lease to be made, please advise whether or not the subject instrument is a suitable basis for an agreement with the garage and, if so, to what extent it is deemed necessary to modify it. This office finds objectionable the provision requiring payment in advance and intends to incorporate applicable public policy provisions.
